

**Learning Community
Charter School
Counseling Program
Mission Statement:**

The mission of the school counseling program at Learning Community Charter School is to provide a comprehensive and developmentally appropriate program by addressing academic, career and personal social-emotional skills necessary to empower all students to reach their complete potential. In preparation for the challenges of the 21st century, the counseling program will encompass the C.I.R.C.L.E. values to directly address various student needs to include social and personal adjustment, educational and career planning and human growth and development. Learning Community Charter School will nurture every child's emotional intelligence.
